

## Computer Acquisition Application

The Double-Click Computer Acquisition Project provides eligible person with a disability living in Texas with a low-cost, desktop computer complete with a computer processing unit, monitor, keyboard, mouse and technical assistance. The computers are shipped to each Double-Click recipient within the state. The cost of the refurbished computer is \$120 with a 17" LCD monitor.

In addition, the Double-Click Computer Acquisition Project provides a loan program to provide financial assistance for the acquisition of a refurbished computer through Double-Click. The Double-Click Computer Acquisition Project Loan Program is a companion program to serve as a resource for people with disabilities that have no other financial resource to attain a refurbished computer.
